COMPONENTS: 2 heavy duty rail locks, 1 tab lock, 1 tube of adhesive, 2 sets of keys

COMPATIBILITY: All Dell Computers, Servers and Equipment

DESCRIPTION: Ultimate Security Rail Lock -- The Desktop/Server Rail Anti-Theft Security Kit is a custom designed all-in-one rail solution to protect all PCs, servers or office equipment. The rail kit can be secured to a desktop or under a desk and provides maximum security for lab environments. This space saver protects the chassis and holds up to three peripheral cables. Tab lock protects internal components. Guards against theft/earthquakes and is cable free. The optimum solution for your high security needs.
