COMPONENTS: 1 stainless steel lock attached to loop-ended security cable, 2 keys

COMPATIBILITY: All notebooks, docking stations, flat panel monitors and desktops with standard security slot.

DESCRIPTION: Protects valuable notebook computers against theft or unwanted borrowing. Compatible with all Dell™ notebooks, desktops, docking stations and flat panel monitors utilizing built in security slot. Peripheral trap protects mouse, keyboard, and/or monitor cables. 100% stainless steel one-piece construction with super strength "T" in slot. The loop-ended security cable is galvanized steel and thicker than standard cables on the market today. The cable can be looped around a stationary object in the office, at the airport or just about anywhere. Installation takes seconds. No keys needed to lock, just a push in tubular cylinder.
